Cumulative Editorial Index

Including February 1983 through December 1983. Number preceding hyphen is month of issue; those following are page numbers. Asterisks indicate items appearing in departments. PRODUCTION ENGINEERING is indexed in Applied Science & Technology and the Engineering Index, available in libraries generally. Microfilm copies are available from University Microfilms, 300 N. Zeeb Rd., Ann Arbor, Mich. 48016. Reprints of early issues are available from Johnson Reprint Corp., 111 Fifth Ave., New York, N.Y. 10003.

The January 1983 issue is the annual Productivity Reference Issue and Buyer's Guide, containing overview articles on all major manufacturing equipment. Single copies are available at $5.00 each, prepaid, from PRODUCTION ENGINEERING, 1111 Chester Ave., Cleveland, Ohio 44114.

A

Andrews, Philip P., Robotic Justification: The Domino Effect, 4-52

Automated Factory, The
- Three Views Of The Automated Factory, 4-72
- Planning to Automate Your Factory, 5-50
- The Automated Factory—A Progress Report, 5-40
- The Foundations Of Automated Manufacturing, 5-42

Automotive
- Detroit Report: '84, 10-38

B

Borden, Joel, Sharpen Your Learning Curves To Boost Productivity, 3-33

C

CAD/CAM
- CAD/CAM—The Factory Integrator, 4-65
- CAD System Cuts Turnaround Time, Smooths Cash Flow, 8-14*
- Autofact 5 = CIM NOW!, 11-64
- Computer Integrated Manufacturing—From Vision to Reality, 11-46

Carlson, Ronald F., Peck Drill Cuts Hole Costs For Aerospace Assemblies, 10-14*

Clifton, James E., Peck Drill Cuts Hole Costs For Aerospace Assemblies, 10-14*

Controls
- Sensors and Switches At The Edge of Technology, 8-32

D

Drives
- Drives and Drive Controls: Update '83, 3-38
- Making V-Belts Work for You, 11-56
- The Right Servo System: Dc Or Ac?, 3-44

Droy, John B., FMS—Planning for Success, 9-72

F

Finance
- Is Your Capital Equipment Finance Strategy Up To Date?, 5-35
- Quick payback improvements can fund capital projects, 6-8*
- Simple cost reduction yield big, quick results, 10-8*

Fitch, Jim C., Crucial And Healthy, 9-64

Fitzpatrick, Stephen P., Manufacturing Strategies—Lessons from Japan, 10-34

G

Gallimore, Jack M., Planning To Automate Your Factory, 5-50

H

Hall, Mark, Network Primer, 6-66

Hegland, Donald E.,
- PC Conference Combines Show And Tell, 2-34
- Robotics Growth—No End In Sight, 4-46
- The Automated Factory—A Progress Report, 6-40
- Robots Meet The Challenge, 6-48
- Seeing Eye Robots For The Automated Factory, 8-46
- Flexible Manufacturing—The Way To The Winner's Circle, 9-54
- Computer Integrated Manufacturing—From Vision To Reality, 11-46

Hinkel, Edward D., More Profitable Cold Heading? Think Stainless, 7-32

Hughes, Tom,
- Drives and Drive Controls: Update '83, 3-38
- Is Your Capital Equipment Finance Strategy Up To Date?, 5-35
- Flexible Manufacturing—The Way To The Winner's Circle, 9-54
- Detroit Report: '84, 10-38
- Power Transmission & Fluid Power Show Parades Products And Ideas, 12-54
- Reinforced Plastics/Composites: Old Conference, New Show, 12-70

Hydraulic Fluids
- New Life For Old Hydraulic Fluid, 2-46

I

Inspection
- Quick Tests Speed Plastic Parts Production, 2-14*

J

Japan
- Manufacturing Strategies—Lessons from Japan, 10-34

Jasany, Leslie C.,
PC's Place In The Automated Factory, 2-28
A Variety of Learning At The Design Show, 3-58
Putting Personal Computers To Work, 6-72
Sensors and Switches At The Edge of Technology, 8-32
Autofact = CIM Now, 10-64

K

Kowalski, John, Product Reliability—Improving The Odds, 10-56

L

Local Area Networks
Network Primer, 6-66
Luftig, Edward, Wage Incentives—An Investment In Productivity, 5-31

M

Manufacturing
Automated Arc Welding—Are You Ready, 7-52
CNC, Fixture Unite to Keep Work In House, 11-14*
Crucial And Healthy, 9-64
Factories of the future need schools of the future, 8-8*
Flexible Assembly Machines—What Hope?, 10-48
Flexible Manufacturing—The Way To The Winner's Circle, 9-54
FMS—Planning For Success, 9-72
For Complex Parts At Cost Savings, Think Powder Metallurgy, 6-56*
Making V-Belts Work For You, 11-56
Manufacturing Strategies—Lessons From Japan, 10-34
No one is going to run this plant out of business, 5-8*
Peck Drill Cuts Hole Costs for Aerospace Assemblies, 10-14*
Marsh, Nick, Production-Line Motor Protection Comes Up To Help, 4-20
Materials
Are Leaks Watering Down Your Profits?, 3-66*
Metal/Plastic Composite Turns On The Heat, 9-76*
Modern Perforated Metals: Myths And Truths, 8-40
More Profitable Cold Heading? Think Stainless, 7-32
Tailored Thermoplastics, 4-80*
Reinforced Plastics/Composites: Old Conference, New Show, 12-70
McRainey, John H.,
Robotics Growth Spurs Training Programs, 2-40
AS/RS A Trend To Small With Big Benefits, 5-42
Existing Facilities, Flexible Handling & Modular Components, 12-46
Motors
Production-Line Motor Protection Comes Up To Help, 4-20*
Motor And Control Team Scores Twice For Better Winding, 9-14*

P

Packaging
Foam Protection In High-Volume Packaging, 2-54*
Bulk Glass Line Multiplies Savings, 3-14*
Parts Handling
AS/RS A Trend To Small With Big Benefits, 5-42
Batches Of One—The Ultimate In Flexibility, 9-50
Existing Facilities, Flexible Handling & Modular Components, 12-46
Peterson, Stephen D., Planning For Involvement, 11-42
Personal Computers
Putting Personal Computers to Work, 6-72
Philipbar, David A., New Life For Old Hydraulic Fluid, 2-46
Productivity
Accurate Preform Loading Reduces Scrap, Saves Dies, 7-60*
Buyer/seller relationships are changing dramatically, 9-8*
Cutting Fluids For Better Performance, 5-58*
'Divide and optimize' theory creates production problems, 7-8*
Extending Tool Life, 6-80*
Lasers Help Capacitor Maker Gain Good Marks, 7-14*
Machine-Aided Assembly Ups PC Board Production, 6-14*
Manpower And Materials—Overlooked Elements Of Productivity, 8-30
More, better cooperation will make better competitors, 4-8*
Motor and Control Team Scores Twice For Better Winding, 9-14*
No Bottle—No Fill, 12-76*
Planning For Involvement, 11-42
Productive technology can be a strategic asset, 11-8*
Relations with vendors 2-8*
Sharpen Your Learning Curves To Boost Productivity, 3-33
Speed and Accuracy, 2,000 Times, 11-74*
Superior production—always necessary, not always sufficient, 3-10*
Up & Down Control In Tight Spaces, 10-64*
Wage Incentives—An Investment In Productivity, 5-31
What Ever Happened to Reindustrialization, 7-26
Programmable Controllers
PC's Place In The Automated Factory, 2-28
PC Conference Combines Show And Tell, 2-34
PC Versatility Goes On & On & On . . ., 7-44
All signs point to steady growth in process control, 7-62*
Plank, J. Lee, Modern Perforated Metals: Myths And Truths, 8-40
